

Hwanhoon KIM

Frontend Developer (React.js, Next.js)

EXPERIENCE

JUNIOR FRONTEND DEVELOPER

Spartan Coding Club | Seoul, South Korea

Mar 2023 - Nov 2023

I have successfully spearheaded several projects centered around API integration and database management, leveraging my expertise in various technologies and platforms.

- **Frontend Development:** Proficiency in front-end technologies including React.js, Next.js, TypeScript, Tailwind CSS, Ant Design, and Mantine UI, enabling the creation of intuitive and visually appealing user interfaces.

- **Database Management:** Demonstrated adeptness in managing PostgreSQL databases, particularly through the utilization of Supabase and its authentication features, ensuring seamless data storage and retrieval processes.

- **API Integration:** Proficient in utilizing a range of APIs including Google Maps API, Naver Maps API, and Collins Dictionary API to enhance project functionalities and user experiences.

- **Server-Side Rendering (SSR):** Acquired a solid understanding of server-side rendering principles, contributing to optimized performance and enhanced scalability of web applications.

WEB BUILDER & TOUR AGENT

Sally Tour | Seoul, South Korea

Jul 2019 - Feb 2022

Originally hired as a tour agent responsible for conducting tours and facilitating sales in both B2B and B2C capacities, I honed invaluable *communication skills* while effectively mediating between tour guides, clients, and drivers. This role demanded adaptability and composure, particularly in *managing urgent situations*.

Transition to Web Development

During my tenure, I embarked on a journey into the realm of *web development*. As part of this transition, I took the initiative to build the company website utilizing Wix. While this endeavor may not have been directly tied to traditional frontend development, it served as a pivotal starting point, igniting my passion for coding and setting me on a path towards professional growth in the field.
